The exceptional passing percentage of our clients encourages us to offer money back guarantee on relying on our top C_S4CPS_2202 dumps for exam preparation, With so many years' development our high-quality C_S4CPS_2202:SAP Certified Application Associate - SAP S/4HANA Cloud (public) â€" Professional Services Implementation exam torrent and satisfying customer service gain excellent fame from all buyers so that we are now the leading position in this field.

Our C_S4CPS_2202 practice questions are on the cutting edge of this line with all the newest contents for your reference, There are so many customers who not only pass exam but also feel warm about our service.

Of course, you are bound to benefit from your study of our C_S4CPS_2202 practice material.

NEW QUESTION: 1

Your network contains an Active Directory domain named constoso.com that is synced to Microsoft Azure Active Directory (Azure AD). All computers are enrolled in Microsoft Intune. The domain contains the computers shown in the following table.

You are evaluating which Intune actions you can use to reset the computers to run Windows 10 Enterprise with the latest

update.

Which computers can you reset by using each action? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

NEW QUESTION: 2

Your company plans to implement a new compliance strategy that will require all Azure web apps to be backed up every five hours.

You need to back up an Azure web app named az400-11566895-main every five hours to an Azure Storage account in your resource group.

To complete this task, sign in to the Microsoft Azure portal.

Answer:

Explanation:

See solution below.

Explanation

With the storage account ready, you can configure backs up in the web app or App Service.

* Open the App Service az400-11566895-main, which you want to protect, in the Azure Portal and browse to Settings > Backups. Click Configure and a Backup Configuration blade should appear.

* Select the storage account.

* Click + to create a private container. You could name this container after the web app or App Service.

* Select the container.

* If you want to schedule backups, then set Scheduled Backup to On and configure a schedule: every five hours

* Select your retention. Note that 0 means never delete backups.

* Decide if at least one backup should always be retained.

* Choose if any connected databases should be included in the web app backup.

* Click Save to finalize the backup configuration.

NEW QUESTION: 3

A company runs a public-facing application that uses a Java-based web service via a RESTful API. It is hosted on

Apache Tomcat on a single server in a data center that runs consistently at 30% CPU utilization.

Use of the API is expected to increase by 10 times with a new product launch. The business wants to migrate the application to AWS with no disruption, and needs it to scale to meet demand.

The company has already decided to use Amazon Route 53 and CNAME records to redirect traffic. How can these requirements be met with the LEAST amount of effort?

- A.** Create a Docker image and migrate the image to Amazon ECS. Then change the application code to direct web service queries to the ECS container.
- B.** Lift and shift the Apache server to the cloud using AWS SMS. Then switch the application to direct web service traffic to the new instance.
- C.** Modify the application to call the web service via Amazon API Gateway. Then create a new AWS Lambda Java function to run the Java web service code. After testing, change API Gateway to use the Lambda function.
- D.** Use AWS Elastic Beanstalk to deploy the Java web service and enable Auto Scaling. Then switch the application to use the new web service.

Answer: C

NEW QUESTION: 4

Refer to the exhibit.

An ACI administrator installs the "acittoolkit package" and creates Python scripts to collect information and see the health status of different objects from the ACI fabric. Which information is shown by this script?

- A.** It shows all the objects under Infra tenant and health status of one.
- B.** It shows all the objects under the tenants and the health status of each one.
- C.** It shows all the tenant names created and health status of each one.
- D.** It shows the tenant names created.

Answer: C
