### **Pass Guaranteed The Open Group - OGA-032 "Reliable Flexible Testing Engine**

Outside, you can use the APP version of our OGA-032 study materials, Please feel free to contact us if you have any problems about the pass rate or quality of OGA-032 practice test or updates.

On one hand we provide the latest questions and answers about the The Open Group OGA-032 exam, on the other hand we update our OGA-032 verified study torrent constantly to keep the accuracy of the questions.

The The Open Group exam is just like a coliseum or a single-plank bridge which reflects the cruelty of the competition (OGA-032 torrent PDF), What's more, when you have shown your talent with ArchiMate 3 Part 2 Exam certification in relating field, naturally, you will have **OGA-032 Flexible Testing Engine** the chance to enlarge your friends circle with a lot of distinguished persons who may influence you career life profoundly.

The Open Group OGA-032 exam dumps are the best choice for the certification exam, There was still time to work hard to make your life better.

#### **NEW QUESTION: 1**

You work for an OEM system builder.

You use Windows Deployment Services (WDS) to deploy Windows operating system images.

WDS contains a 32-bit boot image.

You receive a new client computer model that is 64-bit.

You add a 64-bit install image of Windows 8 to WDS.

You attempt to deploy a new install image to the new computer model by using WDS. The boot image loads on the new computer, but you fail to apply the install image.

From Diskpart, you run the List disk command and you discover that no objects are found.

You need to ensure that you can deploy the new install image to the new computer model.

What should you do?

- A. Add the 64-bit driver for the mass storage device into the install image.
- B. Add the 32-bit driver for the mass storage device into the boot image.
- C. Add the 64-bit driver for the mass storage device into the boot image.
- D. Add the 32-bit driver for the mass storage device into the install image.

**Answer: B**

Explanation:

You might aim to deploy 64-bit editions of Windows 8. But you may find that you have to deploy some 32-bit installations because of legacy hardware or application/driver compatibility issues. Some legacy hardware will have 32-bit processors. This means that you will have to use 32-bit boot images for them.

### **NEW QUESTION: 2**

The Basic EPS represents which of the following?

- I. The net income divided by number of shares outstanding.
- II. The amount of net income available for distribution to common stock holders, per share.
- III. The net income after preferred dividends, expressed per common share.
- IV. Net income after preferred dividends divided by total equity.

- A. I, II & IV
- B. I, II, III & IV
- C. II & III
- D. III & IV

**Answer: C**

Explanation:

Explanation/Reference:

Explanation:

For a simple capital structure, Basic EPS = (Net Income - Preferred dividends)/weighted # of common shares = The amount of net income available for distribution to common stock holders, per share. Net income after preferred dividends divided by total equity is not true since total equity includes preferred equity whereas the denominator of Basic EPS consists only of common shares.

### **NEW QUESTION: 3**

A company has a policy that all their technicians will start their working day at their first job and end their day at the office depot.

What should you set in the system to capture this requirement?

- A. Resource start location = home, Resource end location = office depot, resource type features \* working time includes travel from last activity is left unchecked, working time

includes travel to first activity is checked.

**B.** Resource start location = home, Resource end location = office depot, resource type features = working time includes travel from last activity is checked, working time includes travel to first activity is left unchecked.

**C.** Resource start location = home, Resource end location = home, resource type features = working time includes travel from last activity is checked, working time includes travel to first act left unchecked.

**D.** Resource start location = office depot, Resource end location = home, resource type features a working time includes travel from last activity is checked, working time includes travel to first activity is left unchecked.

**Answer: B**
