Answer: A,E

NEW QUESTION: 3

You need to create a function that filters invoices by CustomerID. The SELECT statement for the function is contained in InvoicesByCustomer.sql.

Which code segment should you use to complete the function?

- A. Option C
- B. Option B
- C. Option A
- D. Option D

Answer: C

Explanation:

Explanation/Reference:

Testlet 1

Scenario 2

Application Information

You have two servers named SQL1 and SQL2 that have SQL Server 2012 installed.

You have an application that is used to schedule and manage conferences.

Users report that the application has many errors and is very slow.

You are updating the application to resolve the issues.

You plan to create a new database on SQL1 to support the application. A junior database administrator has created all the scripts that will be used to create the database. The script that you plan to use to create the tables for the new database is shown in Tables.sql. The script that you plan to use to create the stored procedures for the new database is shown in StoredProcedures.sql. The script that you plan to use to create the indexes for the new database is shown in Indexes.sql. (Line numbers are included for reference only.) A database named DB2 resides on SQL2. DB2 has a table named SpeakerAudit that will audit changes to a table named Speakers. A stored procedure named usp_UpdateSpeakersName will be executed only by other stored procedures.

The stored procedures executing usp_UpdateSpeakersName will always handle transactions.

A stored procedure named usp_SelectSpeakersByName will be used to retrieve the names of speakers.

Usp_SelectSpeakersByName can read uncommitted data.

A stored procedure named usp_GetFutureSessions will be used to retrieve sessions that will occur in the future.

Procedures.sql

Indexes.sql

Tables.sql

NEW QUESTION: 4

Which of the following is the MOST effective way for an organization to ensure its third-party service providers are aware of information security requirements and expectations?

- A. Providing information security training to third-party personnel
- B. Inducting information security clauses within contracts
- C. Requiring third parties to sign confidentiality agreements
- D. Auditing the service delivery of third-party providers

Answer: A
