.Customer.Address(Billing).State. What is the property mode for .Address(Billing)?

- A. Page List
- B. Page Group
- C. Page
- D. Single Value

Answer: A

NEW QUESTION: 3

Amazon EC2 instances are available in multiple Availability Zones. You have a fleet of Amazon EC2 instances that are distributed across three Availability Zones. You want to ensure that your fleet is resilient to a failure of an Availability Zone. Which of the following actions should you take to ensure that your fleet is resilient to a failure of an Availability Zone?

- A. All at Once
- B. Rolling
- C. Rolling with an Additional Batch
- D. Immutable

Answer: C

NEW QUESTION: 4

A current customer has an older HP 3PAR StoreServ F400 running InForm OS 2.3.1 in a preproduction data center and is facing a new schedule for scaling out the application into production. The scale out will require twice the capacity and three times the performance to handle the initial workload. You design a new high performance HP 3PAR StoreServ 7400 with 64 SSDs to meet the demand of the new application. The customer has already tested new application servers attached to the F400. Due to competitive issues, the customer needs to move into production quickly and with minimal disruption.

Which solutions should you include to help ensure customer success? (Select two.)

- A. HP 3PAR StoreServ Thin Conversion to reduce the storage requirement on the new array.
- B. HP 3PAR StoreServ Data Migration services to assist with populating the new array with production data
- C. HP MPX200 Appliance to facilitate automatic storage migration from the older 3PAR array with minimal disruption
- D. HP 3PAR StoreServ Peer Motion to allow for non-disruptive storage movement to the new array

E. HP 3PAR StoreServ Temporary Remote Copy License for data migration to the new array as easily as possible

Answer: D,E
