#### **NEW QUESTION: 4**

You are the SharePoint administrator for a company. You plan to deploy the SharePoint sites that will be accessible from the company portal. You create the following sites:

A user named User1 will manage the sites. You must prevent all users except for User1 from creating sites and subsites. User1 must be able to delegate management of List permissions to other users. You designate a user in each division as a lead for that division's site.

You need to allow the designated lead in a division to manage their division's site while minimizing administrative effort. What should you do?

- A.** Create a new SharePoint group on the Portal site named SP Division Managers. Grant the Design permission to the group and add all designated divisional lead user accounts into the group.
- B.** Add all the designated divisional user account to the portal site and grant each user the Design permission.
- C.** Add all divisional user accounts to the portal site's Team Owners group.
- D.** For each site, add the designated divisional user account to the Team owners group for that divisions' site.
- E.** Add the designated divisional user account for each divisional site and grant each user the Design permission.

**Answer: E**
