NEW QUESTION: 4

The below Pareto chart indicates defects in areas associated with billing a client for project services.

Based on this Pareto analysis, which area, or areas, indicate the greatest opportunity for improvement?

- A. The account number and daily rate, because they account for 80 percent of all defects.
- B. The account number, because if it is incorrect, the invoice may be sent to the wrong client.
- C. The charge code, name, address, receipt date, pvc code, discount amount, mail date, and phone number, because they are fairly easy to confirm and correct, thereby significantly reducing the types of defects.
- D. The daily rate, because if it is incorrect, the total amount of the invoice will be wrong, which impacts the cash flow.

Answer: A

Explanation:

Explanation/Reference:

Explanation:

Pareto analysis focuses on what Joseph Juran called the vital few. Named after Vilfredo Pareto, an Italian economist whose studies showed that 80 percent of the wealth was held by 20 percent of the population, quality analysis typically shows that 80 percent of the all problems (defects) are found in 20 percent of the items or areas studied.
