NEW QUESTION: 1

What is the server virtualization product that combines the ESXi hypervisor and the vCenter Server?

- A. NSX
- B. vRealize Operations Manager
- C. vSAN
- D. vSphere

Answer: D

Explanation:

<https://www.mustbegeek.com/understanding-vmware-vsphere-7-features/>

NEW QUESTION: 2

When beginning an audit, both the system owner and the auditors must agree on various aspects of the final audit report. Which of the following would NOT be something that is predefined as part of the audit agreement?

- A. Format
- B. Audience
- C. Size
- D. Structure

Answer: C

Explanation:

Explanation/Reference:

Explanation

The ultimate size of the audit report is not something that would ever be included in the audit scope or definition. Decisions about the content of the report should be the only factor that drives the ultimate size of the report. The structure, audience, and format of the audit report are all crucial elements that must be defined and agreed upon as part of the audit scope.

NEW QUESTION: 3

During a weekly project meeting, a team member states that during a deliverable revision a sales manager made an important remark regarding a customer care process that impacts the entire project. The project manager is surprised that the sales manager is involved in project deliverables.

What should the project manager have done to prevent this?

- A. Performed a stakeholder analysis and developed the stakeholder engagement plan
- B. Identified the scope of the project and informed the stakeholders
- C. Improved the risk review meetings and developed the risk register
- D. Included functional team processes in the issue log and developed preventive actions

Answer: A
