NEW QUESTION: 1

Your customer asks you about Check Point SmartWorkflow. His company must comply with various laws and regulations and therefore it is important for him to be able to see the changes made to a specific object.

How can the customer receive the required information?

A. The customer can use the Check Point's SmartViewTracker to view the required information. He selects the log category Changed Objects.

B. The customer can check compliance.

This function compares the logs with the compliance requirements and automatically reports which part of the selected compliance is fulfilled and which is not.

C. The customer can use the Record Details. This feature enables administrators to track changes that have been made to

objects over an extended period of time. These changes are recorded in SmartView Tracker as audit logs.

D. The customer can use the Check Point's SmartView Tracker directly to receive the required information. He selects the log category SmartWorkflow.

Answer: C
