Our intimate service such as the free trial demo before purchased and the one-year free update service of our JN0-231 after you have purchased both show our honest efforts to you.

NEW QUESTION: 1

The passage of time usually

- A.** has a completely unpredictable effect on the price elasticity of demand for a good.
- B.** causes the price elasticity of demand for a good to decrease.
- C.** causes the price elasticity of demand for a good to increase.

Answer: C

Explanation:

Price elasticity of demand usually increases with time because it often takes time to make the adjustments needed to change spending plans. Consider the time it takes to make all the adjustments you would want to make if the price of gasoline tripled!

NEW QUESTION: 2

Refer to the exhibit.

Assume there are no classes of service restrictions and all numbers shown are reachable from this Cisco Unified IP 7965 Phone. Which statement about the dialing key strokes that allow the owner of this phone to reach directory number 2000 is true?

- A. There is no way to speed dial to directory number 2000 because the speed dial entry is not assigned.
- B. Press 6 on the phone keypad, followed by the Dial softkey.
- C. Press 7 on the phone keypad, followed by the Dial softkey.
- D. Press 5 on the phone keypad, followed by the AbbrDial softkey.
- E. Press the last button on the right hand side of the phone screen.

Answer: D

Explanation:

Explanation/Reference:

Explanation:

NEW QUESTION: 3

Refer to the exhibit. Which command should be used to configure the network to allow the user to access the network?

- A. `ip access-list standard 1 permit 10.10.10.0 0.0.0.255`
- B. `ip access-list standard 1 permit 10.10.10.0 0.0.0.255`
- C. `ip access-list standard 1 permit 10.10.10.0 0.0.0.255`
- D. `ip access-list standard 1 permit 10.10.10.0 0.0.0.255`

Answer: C

NEW QUESTION: 4

You are mentoring a colleague who recently added a local7.notice entry to the /etc/syslog.conf file. After restarting the logging service, your colleague notices that no new records are being logged and asks for your help. Included in the file are these entries:
... (19)*.alert root (20)*.emerg* (21)local7.notice /var/log/Appx.log ...
While running the syslogd process in debug mode, you notice the following:

You examine the /var/adm/messages file:
Jan 6 00:23:10 soll1-server syslogd: line 21: unknown priority name "notice "

What do you identify as the cause of the problem?

- A. The facility local7 does not support the notice priority.
- B. There is a control or nonprintable character at the end of line 21 in the /etc/syslog.conf file.
- C. There is an extra space in line 21 in the /etc/syslog.conf file.

D. The application that logs to /var/log/Appx.log does not support the notice priority.

Answer: C

Explanation:

Must only use Tabs, not spaces.

It says unknown priority name "notice " (there is a space after the word notice).
