NEW QUESTION: 4

Computer-generated evidence is considered:

- A. Demonstrative evidence
- B. Second hand evidence
- C. Direct evidence
- D. Best evidence

Answer: B

Explanation:

Explanation/Reference:

Computer-generated evidence normally falls under the category of hearsay evidence, or second-hand evidence, because it cannot be proven accurate and reliable. Under the U.S. Federal Rules of Evidence, hearsay evidence is generally not admissible in court. Best evidence is original or primary evidence rather than a copy or duplicate of the evidence. It does not apply to computer-generated evidence. Direct evidence is oral testimony by witness. Demonstrative evidence are used to aid the jury (models, illustrations, charts).
