Topic 3, Lab 1
SIMULATION
The following section of the exam is a lab. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.
Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.
Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided.
Please, note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab.
To start the lab
You may start lab by clicking the Next button

Tasks
Click to expand each objective
To connect to the Azure portal, type https:/portal.azure.com in the browser address bar.
Instructions
Performance Based Lab
This type of question asks you to perform tasks in a virtual environment.
The screen for this type of question includes a virtual machine window and a tasks pane.
The window is a remotely connected live environment where you perform tasks on real software and applications.
On the right is a Tasks pane that lists the tasks you need to perform in the lab. Each task can be expanded or collapsed using the "+" or "-" symbols. A checkbox is provided for each task. This is provided for convenience, so you can mark each task as you complete it.
Tasks
Click to expand each objective
-Configure servers
Add the "Print and Document Services" role to server LON-SVR1, installing any required management features and enabling both Print and LPD Services.
+Configure file and share access
When you are finished performing all the tasks, click the 'Next' button.
Note that you cannot return to the lab once you click the 'Next' button. Scoring occur in the background while you complete the rest of the exam.
Comments
Once the exam completes, the comment period will begin and you will have the opportunity to provide comments to Microsoft about the exam questions. To launch the comment period, click the "Finish" and then
"Comment" buttons. To skip the comment period and the exam, click Exit.
You can navigate to a question from the Review screen to provide a comment. Please, see the Review Screen tab in the Review Screen help Menu (which can be accessed from the Review Screen) for details on accessing questions from the Review Screen.
To comment on a question, navigate to that question and click the Give Feedback icon. When you have entered your comment in the comment window, click Submit to close the window. To navigate to the Review screen again, click the Review button.
You may navigate through all questions using the Next and Previous buttons. To skip commenting, go to the Review Screen by selecting the Review Screen button in the upper left-hand corner and from the Review Screen, select "Finished".
Controls Available
For any question, one or more of the following controls might be available.

Keyboard Shortcuts Available
Exam features may be accessed using keyboard shortcuts. The
following table describes the keyboard shortcuts that are
available during this exam.
Some keyboard shortcuts require that you press two or more keys
at the same time. These keys are separated by a plus sign (+)
in the table below.

NEW QUESTION: 3
DRAG DROP

Answer:
Explanation:

NEW QUESTION: 4
Which of the following are sub-categories of threat?
Each correct answer represents a complete solution. Choose
three.
A. Intentional and accidental
B. Computer and user
C. External and internal
D. Natural and supernatural
E. Natural and man-made
Answer: A,C,E
Explanation:
Explanation/Reference:
Explanation:
A threat is any event which have the potential to cause a loss.
In other word, it is any activity that represents a possible
danger. The loss or danger is directly related to one of the
following:
Loss of confidentiality- Someone sees a password or a company's
secret formula, this is referred to as

loss of confidentiality. Loss of integrity- An e-mail message
is modified in transit, a virus infects a file, or someone
makes unauthorized changes to a Web site is referred to as loss
of integrity.
Loss of availability- An e-mail server is down and no one has
e-mail access, or a file server is down so

data files aren't available comes under loss of availability.
Threat identification is the process of creating a list of
threats. This list attempts to identify all the possible
threats to an organization. The list can be extensive.

Threats are often sub-categorized as under:
External or internal- External threats are outside the boundary
of the organization. They can also be

thought of as risks that are outside the control of the
organization. While internal threats are within the boundary of
the organization. They could be related to employees or other
personnel who have access to company resources. Internal
threats can be related to any hardware or software controlled
by the business.
Natural or man-made- Natural threats are often related to
weather such as hurricanes, tornadoes, and

ice storms. Natural disasters like earthquakes and tsunamis are
also natural threats. A human or man- made threat is any threat
which is caused by a person. Any attempt to harm resources is a
man-made threat. Fire could be man-made or natural depending on
how the fire is started.
Intentional or accidental- An attempt to compromise
confidentiality, integrity, or availability is intentional.

While employee mistakes or user errors are accidental threats.
A faulty application that corrupts data could also be
considered accidental.
