NEW QUESTION: 3
Note: This question is part of a series of questions that use the same scenario. For your convenience, the scenario is repeated in each question. Each question presents a different goal and answer choices, but the text of the scenario is exactly the same in each question in this series.
Start of repeated scenario.
You are a database administrator for a company that has on-premises Microsoft SQL Server environment.
There are two domains in separate forests. There are no trust relationships between the domains. The environment hosts several customer databases, and each customer uses a dedicated instance running SQL Server 2016 Standard edition. The customer environments are shown in the following table.

End of repeated scenario.
You need to configure auditing for WDWDB.
In the table below, identify the event type that you must audit for each activity.
NOTE: Make only one selection in each column.

Answer:

Explanation:

Explanation

You must log any deletion of views and all database record update operations.

NEW QUESTION: 4
