NEW QUESTION: 3
Which of the following types of deferred compensation plans is
considered "portable" because employees can remove the money
from the plan and convert the payment into other forms?
A. Profitsharing
B. Target benefit
C. Cash balance
D. Money purchase
Answer: C
Explanation:
Explanation: A cash balance plan is considered "portable"
because employees can remove the money from the plan and
convert the payment into other forms. A profitsharing plan,
also known as a discretionary contribution plan, is considered
to be best in a company that has highly variable annual
profits. A money purchase plan offers employees a fixed annual
percentage and thus is best in a company that has fairly
consistent annual earnings. A target benefit plan uses
actuarial formulas to determine how much an employee will
receive toward retirement.
