NEW QUESTION: 2

Refer to the exhibit.

The data architect informs the business analyst of an additional data source for Customer data. The values are stored in a different format.

Users do NOT need to display values in the current format for the NewCustomer.

The business analyst has split the 'Customer' column into two new fields in the New Customer table.

Which steps should the business analyst take to finish integrating the new customer records into the existing visualizations?

- A.** 1. Click on the Customer table
2. Select Concatenate tables in the '...' option menu
3. Select the New Customer table
4. Edit Mappings to align the 'Customer Name' and 'Status' columns from the two tables
5. Remove the remaining third column from the 'New Customer' row
- B.** 1. Click on the NewCustomer table
2. Select Concatenate tables in the '...' option menu
3. Select the Customer table
4. Edit Mappings to align the 'Customer Name' and 'Status' columns from the two tables
5. Rename the columns to 'Customer Name' and 'Status'
- C.** 1. Click on the Customer table
2. Select Concatenate tables in the '...' option menu
3. Select the New Customer table
4. Edit Mappings to align the 'Customer Name' and 'Status' columns from the two tables
5. Rename the columns to 'Customer Name' and 'Status'
- D.** 1. Click on the NewCustomer table
2. Select Concatenate tables in the '...' option menu
3. Select the Customer table
4. Edit Mappings to align the 'Customer Name' and 'Status' columns from the two tables
5. Remove the remaining third column from the 'New Customer' row

Answer: A

NEW QUESTION: 3

A company uses Skype for Business Online. You use contoso.com as the verified domain name for the Office 365 tenant. Users

conduct Skype online meetings. You add fabricam.com to the tenant and configure the tenant to use this domain name. You need to ensure that all Skype online meeting URLs contain the new domain name.

Which Windows PowerShell cmdlet should you run?

- A. Set-CsMeetingRoom
- B. Update-CsTenantMeetingUrl
- C. Set-CsUser
- D. New-CsSimpleUrl
- E. Set-CsMeetingConfiguration

Answer: D

Explanation:

Explanation/Reference:

Explanation:

The New-CsSimpleUrl command Creates a new simple URL, which can then be added to a simple URL configuration collection. Simple URLs make it easier for users to join meetings and conferences, and also make it easier for administrators to log on to the Skype for Business Server Control Panel.

Example: The example shows how a new URL can be added to an existing collection of simple URLs. To begin with, the first command in the example uses the New-CsSimpleUrlEntry cmdlet to create a URL entry that points to https://meet.fabrikam.com; this URL entry is stored in a variable named \$urlEntry.

In the second command, the New-CsSimpleUrl cmdlet is used to create an in-memory-only instance of a simple URL. In this example, the URL Component is set to Meet; the domain is set to fabricam.com; the ActiveUrl is set to https://meet.fabrikam.com; and the SimpleUrl property is set to \$urlEntry, with \$urlEntry being the URL entry created in the first command.

After the URL has been created (and stored in the object reference \$simpleUrl) the final command in the example adds the new URL to the simple URL collection for the Redmond site. This is done by using the Set-CsSimpleUrlConfiguration cmdlet, the SimpleUrl parameter, and the parameter value @ {Add=\$simpleUrl}. This syntax causes the URL stored in the object reference \$simpleUrl to be added to the SimpleUrl property.

```
$urlEntry = New-CsSimpleUrlEntry -Url  
"https://meet.fabrikam.com"  
$simpleUrl = New-CsSimpleUrl -Component "meet" -Domain  
"fabricam.com" -SimpleUrlEntry $urlEntry - ActiveUrl  
"https://meet.fabrikam.com"  
Set-CsSimpleUrlConfiguration -Identity "site:Redmond"  
-SimpleUrl @{Add=$simpleUrl} Incorrect Answers:
```

A: The Update-CsTenantMeetingUrl command updates the meeting URL for the specified Lync Online tenant. The updated URL uses a simpler, more standardized format that makes it easier for clients to locate and connect to meetings.
