You can pass the exam just by your first attempt, On the **Valid AZ-400 Exam Prep** other hand, we have simplified the content and make it better to be understood by all of the customers.

NEW QUESTION: 1

Which two statements are true about manager visibility?

A. It can be enabled for selected user groups.

- B. It is best for one-time or short-term access needs.
- C. It can only be enabled for the entire company.
- D. It is best for companies with 100 or fewer users.

Answer: B,C

Explanation:

A: There is an overhead involved in having manager visibility enabled. When you are designing your book hierarchies, base your designs on the following principles:

* The functionality provided by the Manager Visibility Enabled check box on the company profile is used as little as possible.

The Manager Visibility Enabled option allows managers to access the records of the users who report to them, and allows users to include data in subbooks in their searches.

D (not C): The Manager Visibility Enabled option on the Company Profile page.

Note: Manager Visibility - Allows you to see your own data, plus data directly owned by your subordinates. (This is the default setting.) Manager Visibility Enabled: Select this option to allow managers to see the records of the users who report to them directly or indirectly. A user's manager is determined by the Reports To field on the User Detail page.
