Answer: B

NEW QUESTION: 2

After reloading a router, you issue the dir command to verify the installation and observe that the image file appears to be missing. For what reason could the image file fail to appear in the dir output?

- A. The reload command was issued from ROMMON.
- B. The secure boot-comfit command is configured.
- C. The secure boot-image command is configured.
- D. The confreg 0x24 command is configured.

Answer: C

Explanation:

autocommand: (Optional) Causes the specified command to be issued automatically after the user logs in.

When the command is complete, the session is terminated.

Because the command can be any length and can contain embedded spaces, commands using the autocommand keyword must be the last option on the line.

So after successfully logs in the Admin user sees the running configuration and immediately after is disconnected by the router. So removing the command lets keeps him connected.
