Explanation

How to set up and enable File History

1. On Client1, go to Start > Settings > Update & Security.
2. Select Backup and click "Add a drive."
3. Select the drive or network location (\\DC1\Backups) you want to use for File History's backups.

Now click "More options." Here you can start a backup, change when your files are backed up, select how long to keep backed up files, add or exclude a folder, or switch File History to a different drive.

Click the "Back up now" button to start your first File History backup.
