NEW QUESTION: 1
You have an Azure subscription named Subscription1.

In Subscription1, you create an Azure file share named share1.
You create a shared access signature (SAS) named SAS1 as shown
in the following exhibit.

To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Answer:
Explanation:

Explanation:
Box 1: will have no access
The IP 193.77.134.1 does not have access on the SAS since this
IP falls outside of the allowed IP address range for SAS. Hence
"will have no access" is correct.
Box 2: will be prompted for credentials
The net use command is used to connect to file shares.To mount
an Azure file share, you will need the primary (or secondary)
storage key. SAS keys are not currently supported for mounting.
Based on the provided SAS exhibit, IP address is an allowed IP
and also on given date SAS is active, but account storage key
is must to have to run the "net use" command , which is not
provided in the question. Hence "will be prompted for
credentials" is correct option for this.
