A \_\_\_\_\_ failure occurs when a physical problem prevents Project Server from writing or reading a database file that is required for continuing the database operation.

- A. database
- B. farm
- C. schema
- D. Section: (none) Explanation

Explanation/Reference:

- E. media

**Answer: E**

Explanation:

A media failure occurs when a physical problem prevents Project Server from writing or reading a database file that is required for continuing the database operation. Physical storage media can fail for many reasons. One reason of this failure is a hardware failure. When a media failure occurs, the attempts of the server to use a disk fails and the server issues a warning message.
