NEW QUESTION: 1
DRAG DROP
Historical flight information data will be stored in Windows Azure Table Storage using the FlightInfo class as the table entity.
There are millions of entries in the table. Queries for historical flight information specify a set of airlines to search and whether the query should return only late flights. Results should be ordered by flight name.
You need to specify which properties of the FlightInfo class should be used at the partition and row keys to ensure that query results are returned as quickly as possible.
What should you do? (To answer, drag the appropriate properties to the correct location or locations in the answer area. Each property may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.)

NEW QUESTION: 3
A 12-year-old male is brought to his primary care provider to
determine whether sexual abuse has occurred. The mother states,
"Because there is no permanent physical damage, he does not
need any more treatment." The nurse's response should be based
on which of the following pieces of information?
A. Survivors of male sexual abuse might become confused about
their sexual identity.
B. All children who have been sexually abused have the same
needs, regardless of gender.
C. Unless treated, all male sex abuse survivors grow up to
abuse other children.
D. Male victims of sexual abuse seldom have long-term
psychological problems.
Answer: A
Explanation:
Explanation/Reference:
Explanation:
Male children are sexually abused nearly as often as female
children. Perpetrators are usually men but can be women. Needs
of male children who have been sexually abused might be
different from the needs of female survivors. Male survivors
might respond in anger, question their sexuality, use alcohol
and other drugs, and might try to prove their masculinity by
performing daring acts. Psychosocial Integrity

A company deploys Enterprise Search for SharePoint Server 2013.
The company's Marketing department site is hosted on a local
SharePoint farm. The Marketing department launches an
anniversary promotional campaign.
After viewing search analytics reports for the campaign, you
observe that search users are not being directed to the
Marketing site.
You need to direct users to the anniversary promotional

campaign pages by moving the result to the top of the search results.
What should you do?
A. Use a Query Rule to add a Promoted Result. Render the URL as a banner.
B. Configure properties of the Search Results Web Part NOT to search People, Conversations., or Video and default to Everything.
C. Disable Query Rules that do not direct users to the site.
D. Configure properties of the Search Result Web Part to use a Property filter to query content managed properties associated with Marketing.
Answer: A
Explanation:
To promote individual results so that they appear towards the top of search results with a Query Rule, click Add Promoted Result . In the Add Promoted Result dialog box, in the Title field, type the name that you want to give this promoted result. In the URL field, type the URL of the result that should be promoted. Render the URL as a banner instead of as a hyperlink. Click Save.
