NEW QUESTION: 1

After a user performed a war driving attack, the network administrator noticed several similar markings where Wi-Fi was available throughout the enterprise. Which of the following is the term used to describe these markings?

- A. Rogue access points
- B. IV attack
- C. War chalking
- D. War dialing

Answer: C

Explanation:

Section: Threats and Vulnerabilities

Explanation/Reference:

Explanation:

War chalking is the act of making chalk marks on outdoor surfaces (walls, sidewalks, buildings, sign posts, trees) to indicate the existence of an open wireless network connection, usually offering an Internet connection so that others can benefit from the free wireless

access. The open connections typically come from the access points of wireless networks located within buildings to serve enterprises. The chalk symbols indicate the type of access point that is available at that specific spot.
