NEW QUESTION: 1

You have a computer that runs Windows 7.

You need to prevent users from installing a specific removable drive on the computer.

You connect the removable drive to the computer.

What should you do before you create a Group Policy?

- A. From Device Manager, identify the device location information.
- B. From System Information, identify the device INF file.
- C. From Device Manager, identify the device class GUID.
- D. From System Information, identify the device driver file name.

Answer: C

Explanation:

The device class GUID is used to identify the device.

Prevent Windows 7 from installing or updating device drivers whose device setup class GUIDs you specify.

This policy overrides any other policy that permits update or installation.
