E. All APs in AP-group scan home channel and service clients

Answer: B

NEW QUESTION: 3

A security analyst is adding input to the incident response communication plan.

A company officer has suggested that if a data breach occurs, only affected parties should be notified to keep an incident from becoming a media headline.

Which of the following should the analyst recommend to the company officer?

A. Guidance from laws and regulations should be considered when deciding who must be notified in order to avoid fines and judgements from non-compliance.

B. The first responder should contact law enforcement upon confirmation of a security incident in order for a forensics team to preserve chain of custody.

C. An externally hosted website should be prepared in advance to ensure that when an incident occurs victims have timely access to notifications from a non-compromised recourse.

D. The HR department should have information security personnel who are involved in the investigation of the incident sign non-disclosure agreements so the company cannot be held liable for customer data that might be viewed during an investigation.

Answer: B
