NEW QUESTION: 3

You are assigning admin roles to users in Microsoft Office 365. You need to provide users with the minimum level of permissions required to complete their assigned tasks.

Match each admin role to the permissions it requires.

Instructions: to answer, drag the admin role from the column on the left to the appropriate permissions on the right.

Each admin role may be used once, more than once, or not at all. Each correct match is worth one point.

Answer:

Explanation:

Explanation

* User management admin: Resets passwords, monitors service health, and manages user accounts, user groups, and service requests. The user management admin can't delete a global admin, create other admin roles, or reset passwords for billing, global, and service admins.

* Global admin: Has access to all administrative features. Global admins are the only admins who can assign other admin roles. You can have more than one global admin in your organization. The person who signs up to purchase Office 365 becomes a global admin.

* Billing admin: Makes purchases, manages subscriptions, manages support tickets, and monitors service health.
