software will give you a real exam environment with multiple learning **DES-6332 Reliable Exam Prep** tools that allow you to do a selective study and will help you to get the job that you are looking for.

NEW QUESTION: 1

Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time.

When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.

Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.

Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided. Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab. You may now click next to proceed to the lab.

Lab information

Use the following login credentials as needed:

To enter your username, place your cursor in the Sign in box and click on the username below.

To enter your password, place your cursor in the Enter password box and click on the password below.

Microsoft 365 Username: [\[email protected\]](#)

Microsoft 365 Password: x?-ofP?fg70o

If the Microsoft 365 portal does not load successfully in the browser, press CTRL-K to reload the portal in a new browser tab.

The following information is for technical support purposes only:

Lab Instance: 11325860

You need to ensure that an external user named [\[email protected\]](#) can register an application in your Microsoft 365 tenant. The solution must use the principle of least privilege.

To answer, sign in to the Microsoft 365 portal.

Answer:

Explanation:

See explanation below.

Explanation

You need to create a guest account for the external user and

assign the Application Developer role. As the user's domain is an external domain, you will need to 'invite' the user. The external user will need to accept the invitation to create the account.

1. Go to the Azure Active Directory Admin Center.
2. In the left navigation pane, select Users.
3. Click on the '+ New Guest User' link.
4. Ensure that the 'Invite user' option is selected.
5. Enter [\[email#160;protected\]](#) in the email address field.
6. In the Roles section, 'user' will be selected by default. Click on 'user' to open a list of roles.
7. Select Application Developer in the list and click the 'Select' button to assign the role.
8. Click the 'Invite' button to send the invitation.

NEW QUESTION: 2
