SAP C_BW4HANA_24 online audio guide and these tools are the smartest ones indeed to provide you an exceptional success without any sort of discomfort at all.

You just need to spend about 48 to 72 hours [C_BW4HANA_24](#) on study, you can pass the exam, Our exam braindumps materials have high pass rate.

NEW QUESTION: 1

What is the configuration required to automatically calculate the Jeopardy Score and priority when an orchestration process is planned or re-planned?

- A. Schedule the process refresh and start the order promising server.
- B. Check the Replan Instantly parameter in the orchestration process.
- C. Schedule the process plan orchestration processes.
- D. Check the change mode parameter to Advanced on the orchestration process.

Answer: B

Explanation:

Explanation

You can enable the Replan Instantly feature when you define an orchestration process. It replans the orchestration process immediately after this process completes the orchestration process step, and then displays the revised order data according to the replanning work that it does. It is recommended that you use Replan Instantly only for high priority sales orders, or with sales orders that include a jeopardy threshold of less than one day. For performance reasons, it is recommended that you do not use it with an orchestration process step that is long or complex. If Replan Instantly does not contain a check mark, then Order Management updates the planning data only during the scheduled replanning. <https://docs.oracle.com/en/cloud/saas/supply-chain-management/r13-updatel7d/faiom/setting-up-orchestration-p>

NEW QUESTION: 2

Sie entwickeln eine Anwendung, die Nachrichten in das Windows-Anwendungsereignisprotokoll für den lokalen Computer schreibt.

Womit sollten Sie die von der Anwendung geschriebenen Nachrichten anzeigen?

- A. Remotedesktopverbindung
- B. Notizblock
- C. Ereignisanzeige
- D. XPS Viewer

Answer: C
