NEW QUESTION: 2
What is the Risk Priority Number for risk item number 2? 2
credits
A. 0
B. 1
C. 2
D. 3
Answer: C
Explanation:
Topic 2, Scenario 2 "Reviews"
A software development organization wants to introduce some
specific improvements to its test process.
Currently, most of their testing resources are focussedon
system testing. They are developing embedded software, and do
not have a simulation environment to enable them to execute
software modules on the development host. They have been
advised that introducing inspections and reviews could be the
most appropriate step forward.

NEW QUESTION: 3
Scenario
You are a planner in a city that has recently opened a new
shelter for homeless people. The shelter opens each evening
during the winter and provides a place for people to sleep
during the night in dormitory-style rooms with cots. Some
community members would like the shelter closed because they
feel that the large number of people who congregate on the
sidewalks near the shelter as they wait for it to open pose a
threat to public safety. Your planning director decides to
address these concerns by classifying the shelter as a hotel.
The planning director knows that the zoning ordinance specifies
that a hotel must provide private sleeping quarters, which the
shelter does not. By classifying the shelter as a hotel, the
planning director is taking steps to close the shelter based on
the ground that it is in violation of the zoning ordinance.
Suppose you believe that the planning director has assumed a
position that is not politically feasible and consequently will
be reversed.
What might you do?
Answer:
Explanation:
See the solution below
Explanation
You might choose to take no action. However, waiting until a
higher authority reverses poor or unethical planning decisions
is not the best course of action for a professional planner.

Also, remember that a professional planner does have a special responsibility to plan for the needs of the disadvantaged (Ethical Principle 1)
