Some of them even failed once, With wonderful AD0-E709 valid torrent masters writing team, our Adobe Commerce Developer Expert quality is so high that almost every person could pass the exams with AD0-E709 exam torrent.

Correct AD0-E709 Reliable Test Question & Pass-Sure Adobe Certification Training - Verified Adobe Adobe Commerce Developer Expert

Tinova-Japan AD0-E709 practice exam will help you not only pass AD0-E709 exam, but also save your valuable time, Moreover, our colleagues constantly check the update of our questions to follow up the current certification information about AD0-E709 exam answers.

With the most eminent professionals in the field to compile and examine the AD0-E709 test dumps, they have a high quality, Those free demos give you simple demonstration of our AD0-E709 Ebook study guide.

But PC test engine and online test online are hard to choose, The emergence of AD0-E709 dumps torrent provides you with a very good chance to improve yourself.

Not having done any efforts of preparation is not easy to pass, after all, Adobe certification AD0-E709 exam requires excellent expertise, Gradually, the report will be better as you spend more time on our AD0-E709 exam questions.

We assign specific staff to check the updates and revise every day so that we guarantee all AD0-E709 study pdf in front of you are valid and accurate, Our Adobe AD0-E709 dumps can do that!

NEW QUESTION: 1

You install a non-RAC Oracle Database. During Installation, the Oracle Universal Installer (OUI) prompts you to enter the path of the Inventory directory and also to specify an operating system group name.

Which statement is true?

- A. The operating system group that is specified must have permission to write to the inventory directory.
- B. The ORACLE_BASE base parameter is not set.
- C. The operating system group that is specified should have the

root user as its member.

D. The installation is being performed by the root user.

Answer: A

Explanation:

Note:

Providing a UNIX Group Name

If you are installing a product on a UNIX system, the Installer will also prompt you to provide the name of the group which should own the base directory.

You must choose a UNIX group name which will have permissions to update, install, and deinstall Oracle software. Members of this group must have write permissions to the base directory chosen.

Only users who belong to this group are able to install or deinstall software on this machine.

NEW QUESTION: 2

DRAG DROP

Answer:

Explanation:

NEW QUESTION: 3

You need to create and configure an Azure Storage account named az400lod11566895stor in a resource group named RG1lod11566895 to store the boot diagnostics for a virtual machine named VM1. To complete this task, sign in to the Microsoft Azure portal.

Answer:

Explanation:

See solution below.

Explanation

Step 1: To create a general-purpose v2 storage account in the Azure portal, follow these steps:

* On the Azure portal menu, select All services. In the list of resources, type Storage Accounts. As you begin typing, the list filters based on your input. Select Storage Accounts.

* On the Storage Accounts window that appears, choose Add.

* Select the subscription in which to create the storage account.

* Under the Resource group field, select RG1lod11566895

* Next, enter a name for your storage account named:

az400lod11566895stor

* Select Create.

Step 2: Enable boot diagnostics on existing virtual machine

To enable Boot diagnostics on an existing virtual machine, follow these steps:

1. Sign in to the Azure portal, and then select the virtual machine VM1.

2. In the Support + troubleshooting section, select Boot diagnostics, then select the Settings tab.
3. In Boot diagnostics settings, change the status to On, and from the Storage account drop-down list, select the storage account az400lod11566895stor.
4. Save the change.

You must restart the virtual machine for the change to take effect.
