This version of our 8011 exam torrent is applicable to windows system computer, Applying the international recognition third party for payment for 8011 exam cram, and if you choose us, your money and account safety can be guaranteed.

NEW QUESTION: 1

Which Cisco Unified Contact Center Express script media step can invoke a VXML application to retrieve and play prompts on-demand from an off-box location?

- A. Simple Recognition step
- B. Recording step
- C. Menu step
- D. Voice Browser step
- E. Play Prompt step

Answer: D

Explanation:

Explanation :CRA Voice Browser is fully integrated with the CRA Engine. You can use scripts designed in the CRA Editor to extend VoiceXML applications by providing ICD (Integrated Contact Distribution) call control and resource management. For example, you can use VoiceXML to build a speech dialog as a front end to collect information from the caller. You can then pass this information to the CRA script, and when the agent receives the call, the information collected by VoiceXML will be available. You use the Voice Browser step in the Media palette of the CRA Editor to invoke a VoiceXML application. You can use the bundled voicebrowser.aef script as an example for creating scripts that invoke VoiceXML. (You can create custom scripts to execute other steps in addition to VoiceXML.)

- A. 0
- B. 1
- C. 2
- D. 3

Answer: D

NEW QUESTION: 4

Answer:

Explanation:

Explanation

Box 1: Set-CalendarProcessing:

Use the Set-CalendarProcessing cmdlet to modify calendar processing options for resource mailboxes, which include the Calendar Attendant, resource booking assistant, and calendar configuration. Note that this cmdlet is effective only on resource mailboxes.

Box 2: - ResourceDelegates

The ResourceDelegates parameter specifies a comma-separated list of users who are resource mailbox delegates. Resource mailbox delegates can approve or reject requests sent to the resource mailbox.
