The updated H19-335 from Tinova-Japan engine is a complete package for your H19-335 certification You can use this H19-335 updated lab simulation as well as H19-335 exam papers online.

NEW QUESTION: 1

A. Option C
B. Option B
C. Option D
D. Option A
Answer: B
Explanation:
Note:
*In Microsoft Exchange Server 2013, a Send connector controls the flow of outbound messages to the receiving server.
*When a message is to be delivered to a remote delivery group, a routing path must be determined for the message. Exchange

2013 uses the same logic as Exchange 2010 to select the routing path for a message:
Calculate the least-cost routing path by adding the cost of the IP site links that must be traversed to reach the destination. If the destination is a connector, the cost assigned to the address space is added to the cost to reach the selected connector. If multiple routing paths are possible, the routing path with the lowest aggregate cost is used; If more than one routing path has the same cost, the routing path with the least number of hops is used; If more than one routing path is still available, the name assigned to the AD sites before the destination is considered. The routing path where the AD site nearest the destination is lowest in alphanumeric order is used. If the site nearest the destination is the same for all routing paths being evaluated, an earlier site name is considered.

NEW QUESTION: 2

A. discard
B. reject
C. fileinto
D. drop
E. relay
Answer: B,C,E

NEW QUESTION: 3
DRAG DROP
You have a line-of-business universal app named App1. You have an image of Windows
10 Enterprise named Image1.
Image1 is mounted to the C:\Folder1 folder on a Windows 10 Enterprise computer named
Computer1. The source for App1 is in the C\:Folder2 folder.
You need to ensure that App1 is included in Image1.
What command should you run on Computer1? To answer, drag the appropriate values to the correct locations. Each value may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
