The 3V0-22.21N practice test will enable you to improve your ability with minimum time spent on 3V0-22.21N real exam and maximum knowledge gained.

NEW QUESTION: 1

A client requires a versatile desktop video system that supports dual monitors and the multisite option. Which device should be recommended to the customer?

- A.** Cisco TelePresence EX60 system
- B.** Jabber Video client with PrecisionHD camera
- C.** Cisco TelePresence EX90 system
- D.** Cisco TelePresence MX200 system

Answer: C

Explanation:

Explanation/Reference:

Explanation:

You may connect an external monitor to your EX90 to have it work with two monitors at the same time. The second monitor can

be configured to show presentations instead of having everything on a single screen.

To enable the use of a second monitor the system must be configured for it. This is done via the web interface using the Video Default Presentation Source setting. Doing so is described in the EX90 Administrator Guide which is available separately for download .

If you are in a MultiSite call or in a Point-to-point call with a presentation, you may alter the layout on the screen.

http://www.cisco.com/c/dam/en/us/td/docs/telepresence/endpoint/ex-series/tc4/user_guide/ex90_user_guide_tc41.pdf

NEW QUESTION: 2

Your database supports many applications running on the middle tier. Many applications users create jobs for which you want to statistically measure workload as a part of performance management. What would you do to accomplish the task?

- A.** Create services for the applications and create jobs by using the DBMS_JOBS PL/SQL package.
- B.** Assign resource consumer group to jobs while creating the jobs.
- C.** Create services for the applications, create job class associated with the service, and then create jobs by using the job classes.
- D.** Query v\$SESSION to gather statistics of the individual sessions for the workload created by the jobs.

Answer: C

NEW QUESTION: 3

Your merchant marketing team wants to add new CMS Block, they have already created before their header showcasing a new promotion. They have an internal developer who is unfamiliar with Magento and have asked for guidance on the quickest way to implement this.

What recommendation do you make to add the CMS Block before the Header?

- A.** In design configuration, populate the Additional CMS Content field with the new CMS Block.
- B.** On a new category, set the Display mode to static block only and populate the Add CMS Block field with the new CMS Block.
- C.** Create a new CMS Static Block Widget and assign it to a layout update container.
- D.** This can only be done with a code change to the theme followed by a deployment.

Answer: C

NEW QUESTION: 4

You work as a Java Programmer for JavaSkills Inc. You are working with the Linux operating system.

Nowadays, when you start your computer, you notice that your OS is taking more time to boot than usual.

You discuss this with your Network Administrator. He suggests that you mail him your Linux bootup report.

Which of the following commands will you use to create the Linux bootup report?

- A. `dmesg > bootup_report.txt`
- B. `touch bootup_report.txt`
- C. `man touch`
- D. `dmesg | wc`

Answer: A

Explanation:

Explanation/Reference:

Explanation:

According to the scenario, you can use `dmesg > bootup_report.txt` to create the bootup file. With this command, the bootup messages will be displayed and will be redirected towards `bootup_report.txt` using the `>` command.
